AGORA VOCÊ PODE FACILMENTE PERSONALIZAR AS CORES DE TODOS OS DESENHOS DA BAEPI. BASTA SEGUIR OS PASSOS ABAIXO:

NOW YOU CAN EASILY CUSTOMIZE ALL COLORS ON YOUR FAVORITE BAEPI DESIGNS. JUST FOLLOW THE STEPS BELOW:

PASSO 1: Entre em nosso website em www.baepi.com.br e escolha a língua desejada.

STEP 1: Visit our website at www.baepi.com.br and choose the desired language.

PASSO 2: Clique em SIMULADOR no menu principal

STEP 2: Click on SIMULATOR on the main menu.

PASSO 3: Clique no desenho que gostaria de personalizar. Veja imagem abaixo.

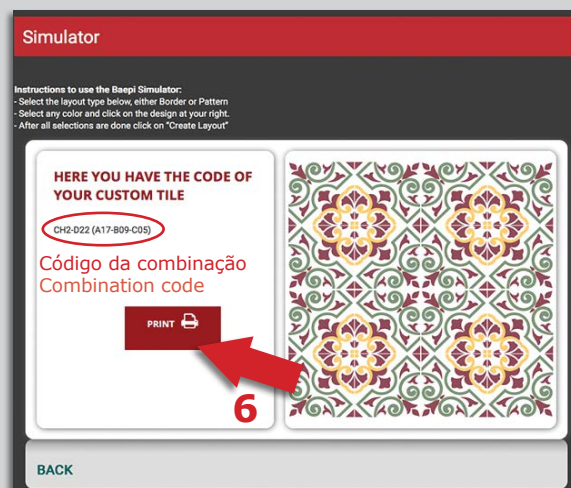

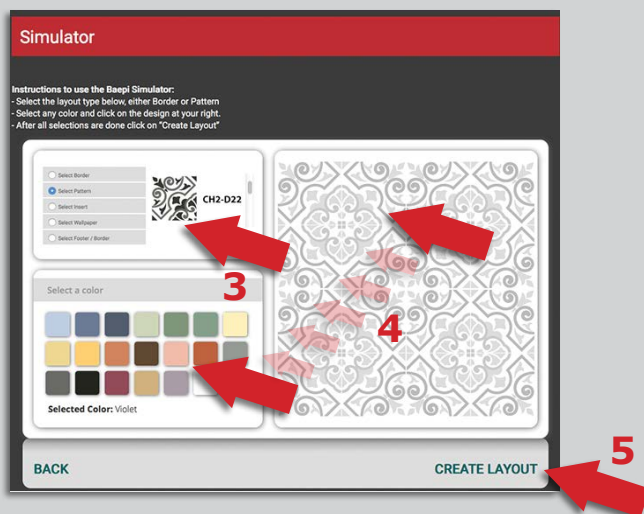

STEP 3: Click on the design you would like to customize. See image below.

PASSO 4: Clique na cor desejada da paleta de cores e em seguida na posição do desenho que gostaria de colorir. Repita isso até atingir a combinação desejada.

Click on the desired color on the color pallet and, right after, click on the position of the design you want to color. Repeat this until you reach the desired color combination.

PASSO 5: Ao terminar clique em FINALIZAR MONTAGEM. Imprima e envie à Antigua o código da composição final escolhida junto com seu pedido.

When done, click on CREATE LAYOUT. Print and send to Antigua the customized coding for the color combination along with your order.

IMAGENS DESTE CATÁLOGO

Este catálogo procura reproduzir com a máxima fidelidade as cores e relevos dos produtos expostos. Entretanto, é possível que as peças reais possuam pequenas diferenças de tonalidade quando comparadas às peças impressas.

NATUREZA ARTESANAL DOS PRODUTOS

Todas as peças cerâmicas são fabricadas manualmente e consequentemente pequenas variações de tamanho, tonalidade fazem parte do produto. Abaixo são informadas as diretrizes e recomendações de instalação e assentamento necessárias para um bom desempenho do produto.

ÁREAS DE APLICAÇÃO

Os produtos Baepi são recomendados para aplicações em pisos e paredes tanto para áreas internas como externas, incluindo fachadas e piscinas. Para utilização como piso, verifique a classificação da resistência à abrasão (PEI) de cada cor lisa no catálogo.

VARIAÇÃO DE TONALIDADE

Devido à natureza artesanal da fabricação, os produtos Baepi podem sofrer pequena variação de tonalidade em diferentes lotes de produção. Por este motivo, sugere-se que todas as vendas incluam pelo menos 10% de material a mais para cada especificação garantindo que o quantitativo esteja adequado para finalização do projeto e se possível garantir uma sobra para eventuais complementações.

VARIAÇÃO DIMENSIONAL & JUNTA MÍNIMA ENTRE PEÇAS

Todas as dimensões dos produtos Baepi descritas são nominais. As dimensões reais podem ser ligeiramente diferentes das nominais. Por este motivo, torna-se obrigatório a existência de uma junta mínima entre peças. Este rejuntamento mínimo garante a acomodação das peças, facilitando a modulação e minimizando qualquer variação dimensional.

A junta mínima entre peças deve ser de **2mm**.

MOSAICOS

Todos os mosaicos Baepi são vendidos com um filme transparente sobre as peças, garantindo assim a regularidade das juntas. Neste caso o assentamento é feito normalmente e a remoção do filme deve ser feita somente após a secagem completa da argamassa.

CUIDADOS NO ASSENTAMENTO

- Não aplicar o material sob condições desfavoráveis, como chuva, sol intenso e vento forte.
- Antes de assentar, assegure que as peças estejam isentas de sujeira ou qualquer material pulverolento.
- Utilize argamassa colante (Ex. Cimentcola Quartzolit) e desempenadeira dentada com dentes de 6x6 mm.
- Evitar exposição prolongada da argamassa. O tempo em aberto máximo não deve ultrapassar os 5 minutos.
- Durante o assentamento, execute o teste de aderência, retirando aleatoriamente algumas peças já assentadas e verifique se o tardo da peça encontra-se completamente preenchido pela argamassa, com total esmagamento dos cordões da desempenadeira.

LIMPEZA E MANUTENÇÃO

A limpeza do trabalho de assentamento das peças esmaltadas deve ser observada criteriosamente. Possíveis excessos de cimento sobre as peças devem ser limpos antes da secagem com um pano úmido. Ácidos podem reagir com o esmalte e manchar as peças com o tempo. Procure limpar a superfície logo após o contato de alimentos ácidos e alguns produtos de higiene pessoal.

RESPONSABILIDADE DE USO E INSTALAÇÃO

A Baepi não se responsabiliza pelo uso inadequado ou fora das especificações do produto. Não nos responsabilizamos também pela instalação do material, devendo ser realizada por assentador experiente. Em caso de dúvidas, consulte-nos pelo site www.baepi.com.br

IMAGES IN THIS CATALOG

The images in this catalog try to reproduce with the most possible fidelity the colors and shades of the real pieces. However the real ceramic tiles might present slight shade variations when compared with the printed ones.

ARTISTIC HANDMADE CERAMIC PRODUCTS

All Baepi products are hand-crafted and are thus subject to minor size and color variations. Below you will find directions and recommendations to a correct installation.

APPLICATION AREAS

Baepi tiles and accessories have been designed for floor and wall use either on interior or exterior areas, including facades and pools. For floor applications, please refer to the superficial abrasion resistance (PEI) of each plain color.

COLOR SHADE VARIATIONS

Being hand crafted, Baepi tiles are subject to minor color shade variations from lot to lot. We recommend than an additional 10% should be ordered to all orders for eventual loss, cuts and future use. In case, additional tiles are required to existing installations please supply the factory with a piece of the original so we can match the order as close as possible.

SIZE VARIATION & MINIMUM JOINT BETWEEN PIECES

All referred dimensions in this catalog are nominal. Real dimensions can vary slightly. Due to the manufacturing nature of Antigua tiles, all products will present a slight variation in size. This variation, along with other physical characteristics, requires the use of a minimum joint between pieces.

The recommended minimal joint thickness is **2 mm (1/8 in)**

MOSAICS

All mosaic products come film mounted (transparent film over the top). In this case, the joints are already given and installation between sheets should keep the same distance. The installation process is the usual and the removing of the film should happen after the mortar is completely dry.

FOR A CORRECT INSTALLATION

- Do not install tiles under extreme conditions such as rain, freezing temperatures, excessive heat and strong winds.
- Before installing, make sure all pieces are free from dirt or any other particles.
- Use the correct cement mortar for the application.
- Avoid long exposure of mortar. The working time should never surpass 5 minutes.
- During installation, take out some random pieces and check whether their back is completely filled with mortar.

MAINTENANCE

Excess grout during installation of glazed tiles should be removed with a wet clean towel or sponge. Although no standard applies to edge impact, the best advice we can give remains to pay careful attention to detail when grouting to ensure that all edges are afforded maximum protection. Do not acid wash glazed tiles. All foods and other substances containing acid may affect the color of a tile. Always clean spills as soon as possible. Cristalina colors are more subject to acid attack. All glazed surfaces are subject to some wearing or scratching over a period of time. Care should be taken to select the proper tile for a given use.

LIABILITY OF INSTALLATION & USE

Baepi does not assume any responsibility for faulty or inappropriate installation of its products. It does not extend any guarantees, express or implied, as to wear resistance, maintenance, glaze slipperiness or other problems which may occur by incorrect use. In doubt, please contact us via website www.baepi.com.br
